

Week-8

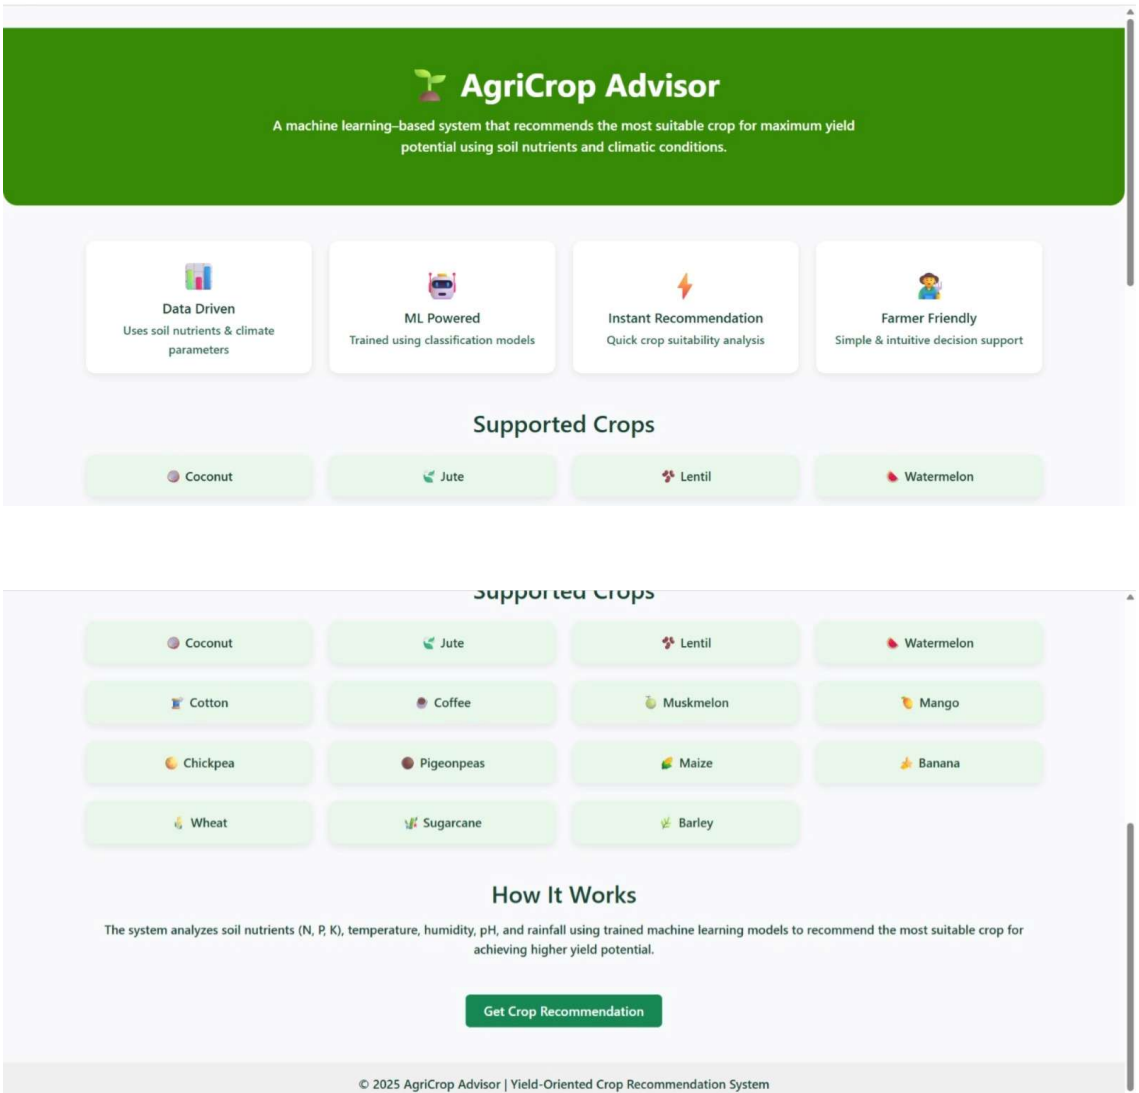

Agri yield Advisor (only crop recommendation dataset),Deployment, Documentation & Presentation

Objective:

To recommend the best crop that gives maximum yield potential based on soil nutrients and climatic conditions.

Dataset Used:

Only Crop Recommendation Dataset

Crop Recommendation Input

Nitrogen (N)

Phosphorus (P)

Potassium (K)

Temperature (°C)

Humidity (%)

Soil pH

Rainfall (mm)

Get Recommendation

Crop Recommendation Result

Based on the soil nutrients and climatic conditions you provided, the most suitable crop to grow is:

papaya
